BETTER THAN ORIGINAL

## THE GOOD MUST OF FORCE GIVE PLACE TO THE BETTER

Our new fine filter series are setting new standards.

- persistent filter efficiency for **consistent reliability** throughout the entire filter service life
- broad range of available membranes, rates and constructions to **adapt best to process specifics**
- **from professionals** for professionals
- **in-house laboratory** for application research and product development
- **proven** in numerous operations **all over the world**
- **optimum price-performance ratio**
- as a matter of course **all common market designs** available
- quality management system: all elements manufactured under ISO 9001, ISO 14001 and OHSAS 18001 for constantly highest quality

FIRST-CLASS PRODUCTION

## INDUSTRIAL GRADE HYDRAULIC AND LUBE OIL FILTER SERIES

Quality Filtration at its Finest.

- low initial pressure differential to enable a **long lifetime**
- exceptionally high dirt capacity results in **less maintenance intervals**
- consistent performance throughout the filter's service life provides **reliable equipment protection**
- highest membrane stability and optimized pleats' support in addition to many other measures yield the required **filter element stability** for heavy duty conditions
- designed for effective use of the filter material's full depth the elements offer **unsurpassed economics**

THOROUGHLY INSPECTED
